

I34R

RECIRCULATING COMPACT CRUSHER

The McCloskey I34R recirculating Impact Crusher combines the productivity of our I34 with the versatility of a full screening and recirculating system, allowing operators to produce a crushed and screened final product with one machine.

This versatile, mobile crusher is able to nimbly move around in small spaces, and continue moving while crushing. The I34R's small footprint is uniquely suited to the demolition and asphalt recycling, aggregates and smaller scale construction projects. Less than 2.5m wide, the crushers can be transported easily from site to site.

The new compact crushers boast flexibility as well, with standard machines converting to recirc in just a few hours.

RADIAL RETURN CONVEYOR
Allows operators to recirculate oversized material from the screenbox back to the feed hopper or radial out up to 90° to feed another machine or stockpile up to 11' 9".

SCREENBOX
High Energy Screenbox.

LARGE FEEDER
Hardox® hopper with integral vibrating feeder. Feed rate is automatically controlled

DIRECT DRIVE CRUSHER
34 x 25.6" feed opening to new direct drive crusher more power, along with lower fuel costs

MAGNET
Reversible magnet enables material separation from the source material.

Engine	252 hp (188 kW) Diesel
Transport Height	10' (3.056 m)
Transport Length	42' 9" (13.024 m)
Transport Width	8' 4" (2.55 m)
Weight (incl. magnet & dirt conveyor)	60,627 lb (27,500)
Stockpile Height - Fines Conveyor	8' 4" (2.54 m)
Stockpile Height - Side Conveyor	8' 6" (2.58 m)
Crushing Chamber	860 mm x 650 mm opening
Rotor	900 mm diameter
Screenbox Dimensions	3.6' (1.1 m) x 10' (6.57 m)
