

J40 JAW CRUSHER

The J40 Jaw Crusher continues McCloskey's focus on quality, durability, and productivity.

With its heavy duty cheekplate design, 40" wide jaw and user-friendly control panel with excellent machine diagnostics, the J40 jaw crusher provides contractors with a highly portable option while meeting all production expectations.

FEATURES

- ✓ 1016mm (40") x 610mm (24") single toggle jaw
- ✓ Hydraulic direct drive grizzly feeder
- ✓ Integrated high capacity hydraulic folding hopper
- ✓ 900mm (36") main conveyor
- ✓ User Friendly Control Panel with Telematics Option
- ✓ Open chassis design for ease of maintenance
- ✓ Fast setup time

J40 TECH SPECS

At 2.5 metres wide, the J40 jaw crusher is ideal for applications that require a high degree of mobility.

Maximum productivity is delivered through the enhancements to the deep jaw box, including a faster jaw speed and a larger gap between the crusher discharge and main conveyor feedboot. The J40 retains the core values expected in a full size McCloskey jaw crusher, including high capacity production and heavy duty build, packaged for efficiency and mobility.

Engine	165-185kW (225-252Hp)
Feed Opening (Peak to Trough)	1016mm x 610mm (40" x 24")
Grizzly Feeder	
Width	950mm (37.4")
Length	3840mm (12' - 7")
Hopper Volume	5.4 m ³ (7.4yd ³)
Stockpile Height	
Main Conveyor	3458mm (11' 4.2")
Side Conveyor	2500m (8' 2")

TRANSPORT

Transport Height	3.2m (10' 6")
Transport Length	13.78m (45' 2.6")
Transport Width	2.50m (8' 2.5")
Weight	36,940 kg
Incl. Magnet, Dirt Conveyor & Deflector Fitted	(81,440 lbs)

OPTIONS

Main Conveyor Variable Speed Control
 | Hopper Extensions | Overband Magnet
 | Water Pump and Dust Suppression
 System | Quarry or Recycling Jaw Dies
 | Crusher Deflector Plate | Work Lights |
 Belt Scale
