

BIOMASS, COMPOST AND RECYCLING BROCHURE

BUILT TO PROCESS, ENGINEERED TO PERFORM.

Since 1999, Commonwealth Equipment has been the power behind the toughest crushing and screening operations across the eastern United States. We are your material processing equipment dealer, built on grit and performance, delivering high-powered machinery and relentless customer support to industries from construction to recycling.

With decades of know-how, our team tackles every challenge head-on, maximizing your productivity and slashing downtime. Whether it's new gear, used machines, or a full line of parts ready to roll, we keep your operation pushing forward.

We don't just sell machines.
We're in this with you.

**OUR PRODUCTS AND SERVICES
ARE DESIGNED TO MOVE MOUNTAINS.**

TOGETHER, WE'LL CRUSH THE TOUGHEST OBSTACLES.

POWER, DURABILITY, AND UNSTOPPABLE PERFORMANCE

Diamond Z stands for strength and innovation in industrial waste recycling. Their grinders tackle the toughest materials construction debris, municipal waste, and more—with ease.

From tub to horizontal grinders, Diamond Z delivers maximum efficiency and productivity. Trusted in recycling, forestry, and biomass energy, their machines keep operations running strong.

ECO-SOLUTIONS FOR A GREENER FUTURE

McCloskey Environmental designs high-performance equipment for recycling, waste management, and environmental applications.

Their trommels, scalpers and stackers are built for efficiency and durability.

With mobile and stationary solutions, they help reduce waste and support sustainable operations across industries.

INNOVATING SUSTAINABLE WASTE MANAGEMENT

Eggersmann North America leads the way in advanced recycling and waste management with cutting-edge equipment built for efficiency and sustainability. From trommel screens and shredders to compost turners, their machines are engineered to optimize waste-to-energy, biomass, and material recycling processes.

Backed by decades of expertise, Eggersmann delivers eco-friendly solutions that meet the evolving demands of sustainable waste management, making them a trusted partner for industries across North America.

BUILT TOUGH FOR DEMANDING MATERIALS

MDS International specializes in high-performance trommels designed for efficient screening in recycling, composting, and waste processing applications. From mobile systems to versatile stationary units, MDS machines are built for durability, mobility, and high-output material handling.

The M518R delivers powerful screening in a compact, user-friendly design—perfect for compost, biomass, topsoil, and municipal waste. With a 180-degree radial fines conveyor and quick setup features, it offers maximum productivity with minimal hassle on any job site.

RELIABLE. READY. FAST.

- ✓ On-site & in-shop repairs
- ✓ 5 fully equipped service bays
- ✓ Full machine rebuilds
- ✓ Large inventory of wear parts
- ✓ Fast shipping & expert support

AND THE PARTS THAT POWER THROUGH

At Commonwealth Equipment, our Service and Parts departments work hand in hand to keep your equipment running at peak performance. Whether you need on-site repairs, full rebuilds, or fast access to high-quality wear parts, our team is ready to deliver fast, reliable, and backed by experience.

From five fully equipped service bays to a massive inventory of critical components, we've got everything you need to minimize downtime and maximize results.
